STAIRLIFTS

Welcome to the **Platinum ergo Straight**

We understand how important it is to feel independent and safe in your own home.

That's why the Platinum ergo Straight stairlift is quick and simple to install on straight staircases and features a fully adjustable, ergonomic chair, ensuring it fits you perfectly and supports you every step of the way.

At Platinum Stairlifts, everything we do is designed around you!

Why Choose the ergo Straight?

The ergo Straight is designed to make every journey safe, smooth, and effortless. Its slim, foldaway design keeps your stairs clear for others, while the fully adjustable ergo chair ensures a comfortable and supportive fit, just for you.

Quiet, reliable, and made to measure, it's the simple way to stay independent in the home you love.

“

I didn't want to admit I needed help with the stairs, but they were getting harder and harder. My daughter suggested the ergo Straight, and I'm so glad she did.

It's so easy to use, and I feel safe every time I sit in it. I don't have to hold the handrail or take a break halfway up anymore. It's just... one less thing to worry about. I can enjoy my home again.”

Why the Platinum ergo Straight is the Best for You

We recognise the value of feeling at ease in your own home.

The Platinum ergo Straight stairlift has been crafted to offer a smooth, comfortable ride with controls that are easy to use.

Its floor-mounted rail keeps your stairs clear and unobstructed, and its quiet operation means it will fit into your home life effortlessly.

Comfort Built Around You

With fully adjustable arms, backrest, and powered footplate options, the Platinum ergo Straight stairlift is designed to make every journey comfortable, secure, and perfectly suited to you.

The optional ergo Plus chair pad provides extra support, particularly helpful for those who find bending challenging. When we install your stairlift, we ensure every detail is tailored to you, so you can sit back, relax, and let it do the work.

Personalised Just For You

The Platinum ergo Straight stairlift doesn't just fit your stairs; it's designed to suit your life.

The armrests, backrest, and chair pad of the ergo Straight adjust to suit you perfectly, offering the support and ease you need.

The ergo Straight has a weight capacity of up to 160kg (25 stone), offering strength and reassurance for a variety of needs.

The ergo Chair

The ergo Plus Chair

The fully adjustable ergo Chair now features a space-saving backrest as standard. For those with shorter legs or difficulty bending their knees, the optional ergo Plus Chair pad, with its gentle contours, provides thoughtful support tailored to your needs.

Direction Control

Going up or down is easy with the Direction Control. And you can choose between buttons or a joystick.

Safety Features

Peace of mind for you and your loved ones.

- A secure, easy-to-use seatbelt protects you every step of the way.
- Battery-powered operation ensures that even in a power cut, you'll always have a safe way to get up and down your stairs.
- Sensitive safety sensors automatically stop the lift if they detect any obstacles, so you can feel confident with each ride.
- Text display for real time information, easily visible on the armrest.
- Remote control to call and park your stairlift at the top or bottom of the stairs.

Thoughtfully made to suit your home

The ergo Straight has a slim, foldaway design that keeps your stairs clear and easy to use for everyone. The arms, seat, and footplate fold neatly away when not in use, so it's never in the way. And if there's a door or passage at the bottom of your stairs, the optional powered hinge rail lifts out of the way, helping to keep your space open, tidy, and welcoming.

Introducing uCare

THE **SMART WAY** TO HAVE PEACE OF MIND

uCare keeps your stairlift connected to the cloud, ensuring that you and your loved ones are always informed about how it's being used and if anything needs attention. You can receive real-time updates via email, so whether you're nearby or further afield, your loved ones can always feel reassured that you are safe.

With Platinum's leading technology, uCare continuously monitors the stairlift, alerting you to any potential issues such as faults, warnings, or if the lift hasn't been used for a while. This means you can have peace of mind, knowing everything is working as it should.

uCare operates independently, without the need for a phone line or Wi-Fi, using secure mobile networks. It's part of Platinum's commitment to making life easier for you and your loved ones.

Why choose Platinum?

Platinum Stairlifts are a British manufacturer, located in Yorkshire. We have been a provider of high-quality stairlifts since 1996.

Committed to the highest level of quality, safety, comfort and reliability. Every stairlift is tested in our manufacturing facility to the highest standards prior to delivery.

Platinum Stairlifts only sell through an Approved Partner Network across the world. You can be assured that your stairlift provider is knowledgeable, fully-trained, and supported by us to provide the best solution for you.

Our mission is: To give people the freedom to live independently at home...

...by building the best stairlifts and delighting our partners.

"When our customers need a stairlift, time is of the essence. This is why we choose to work with Platinum Stairlifts. They provide a quality product for staircases of all shapes and sizes, and with a great turnaround time. Finally, if there are ever any issues, they are always on hand to support us and resolve things quickly."

Platinum Partner
